The Daily News.

NEWPORT,

BY CRANSTON & NORMAN

144 THAMES STREET.

WEDNESDAY MORNING, MAY 16.

Dr. Nivison delivered his introductory lecture at Masonic Hall, last evening, to a large and intelligent audience.

She has a fine command of language, understands her profession thoroughly, and is a very pleasant speaker. The lecture, last evening was of a general nature; in those which follow she will speak particularly and in detail of the different diseases, &c., which are peculiar to her sex. We are confident that the ladies will derive much valuable information by attending this course of lectures, and therefore hope that the Hall will be full every evening. We give a brief sketch of a small portion of her remarks:

Education, she defines, not as consisting principally in the tutelage of childhood and the acquirement of a trade or profession, but the combined experience and discipline which a person conceives all life long, extending, perhaps, into a future state of being, developing the individual into a man or woman in the true sense of that term. Hence, she would deprecate much of our usual practice of schooling children as spurious education. It enfeebles the physical constitution, weakens the intellect, wrests from the soul her innate powers and majesty, converts the individual into a mere repetition of authors rendering him relatively inefficient and hastening him prematurely to the grave.

A true education would give the educational mæsther fewer victims. Maidens would grow up to womanhood useful, because healthful and happy; young men would possess their energy unimpaired, insane hospitals would have fewer inmates; graves fewer corpses of the young and lovely.

Physiology well understood would in all these respects make the crooked strait, and the rough smooth. The study of dietetics is the study of morality and corporeal perfection.

More indispensable than food is air. It communicates to the blood its peculiar element of healthful vitality, makes it course more speedily through the arteries, warms the body, and by uniting with the phosphorus in the brain produces clear, distinct, brilliant thought.

The educator can create no new faculty but only mould those which exist. The discipline of each child should be peculiar to himself; probably two should not be educated alike. The aim should be to develop freedom of thought and vigor of body. Rational beings should think freely and with high moral courage upon every subject open to human investigation, disdaining every trammel which usage or others may desire to impose. The physical system should not be strengthened by exercise, sensitive to delights, free in motion, knowing not discomfort in dress or its internal constitution.

No genuine man or true woman can consent to be ignorant of the laws of their being. It is easy to obey the laws of life, but the penalties are severe. No broken law fails to exact its recompence. It is "soominated in the bond."

The lecturer is a believer in human perfectability. It cannot be that the human constitution will continue to deteriorate till mankind utterly perish. There is a concomitant influx from the great foundation of life; nature constantly brings forward material for its repair; and every effort is making for perpetuation. Intelligent obedience to the Divine and natural laws will inevitably result in restoration to health and longevity.

Dr. Nivison will deliver her first lecture to ladies exclusively, this evening, at Masonic Hall, at 8 o'clock. We trust that the Hall will be filled with ladies.

By reference to another column it will be seen that Perham's celebrated Ethiopian Operatic Company will give two entertainments, in this city, at Bellevue Hall, Thursday and Friday evenings. They have performed in Boston for the last four months with great success; they have recently visited various places, and performed to large audiences, all of whom have been highly pleased.

Mr. Charles C. Burleigh, an agent of the American Anti Slavery Society, will deliver his second lecture on American Slavery, at the State House, this evening, at a quarter before 8 o'clock. He is said to be an able and interesting speaker. The public are invited to attend.

We are very glad that brother Sylvester R. Hazard has made his calling and election sure among the Know Nothings, so as to secure his office again as Overseer of the Poor; he is a very efficient and faithful officer, and ought to be elected for life, if he continues to discharge the duties of his office as thoroughly as he has during the time he has held it.

Howland & Gould, at the City Market, under the Daily News Office, have just received a supply of splendid beef, tongues, &c.

By Clothes Line Telegraph exclusively to the Daily News.

Council Chamber, 4th Ward.

Monday evening.

BROTHER CRANSTON.

We have had rather a quiet evening,—some of us rather, especially among the ladies, have been very anxious for a good while to get James A. Greene into the Order. He was proposed some weeks ago, and rejected; by request, brother Curtis granted a "dispensation" to try Mr. Greene again over the course; consequently he was proposed a second time, and was again rejected. The Maine Law, upon breath heavily and sighed deeply at this unexpected and dangerous result. They felt the more anxious to get him in, because the session of the Assembly is rapidly approaching, and they want to have him picked in the faith so that he can retain his seat on the bench of the Court of Magistrates in this city. In consequence of this, after some effort, they obtained a second "dispensation" from that kind hearted man and particular pet of Clarke Burdick's, brother Curtis, and again put Mr. Greene over the course, with a good deal of confidence that he would certainly win this time; but the Fates were against him, and he was again rejected this evening.—

The Attorney General is said to be more decidedly hostile to the expedition, or rather more entirely convinced of its unlawfulness, according to the representations made of it by Mr. Marcolita, than the President or the Secretary of State. The latter and the Secretary of War were favorable to an expedition, such as was originally proposed—having in view a colonization of territory peaceably and legally acquired. They still think, it is said, that if the object of the present scheme is to settle lands granted to Mr. Fabens, it may be inobjectionable.—But this is not very consistent with the strenuous and decided remonstrances of the Nicaraguan Government against the expedition.

Lieut. Bonaparte, formerly of the U. S. army and now an officer of the French army in the Crimea, writes to his father, in Maryland, as is said, by the last packet, that the allied forces can at any time take Sebastopol, but not without a great sacrifice of their troops. He does not say they could keep it, after getting it. He means, I imagine, that by an assault, and with the loss of twenty thousand men or more they can take the city proper; but that it would be useless, unless they have a force large enough to destroy the Russian army in the fight, and to prevent the Russians from pouring into the Crimea across the isthmus of Perekop, continued supplies of fresh troops and stores and munitions.

The opinion is expressed here, in well informed quarters, that the British Ministry will soon undergo a change. This opinion is said to be formed upon private advices from London. Lord Palmerston, it is intimated, cannot weather the storm.

The Pitt policy, without the energy of Pitt, and the Pitt expeditions, without the victories of Pitt, seem to be as little to the taste of the British public as that of the great exponent of British opinion.

The Judges of the Court of Claims are now here but are too slow in their process of organization to suit the attorneys and clients, who have claims for decision.

Mrs. Stowe BURNT IN EFFIGY.—The Washington correspondent of the Pennsylvania Inquirer has the following paragraph in relation to the many doings of the student in the University of Virginia upon the visit of Miss. Beecher to that place:—

"Within the past few days, says the writer, the University of Virginia has been the scene of incidents hardly creditable to the chivalry of the Old Dominion. Miss. Beecher, an able and accomplished lady, the sister of Rev. Henry Ward Beecher, and of Mrs. Stowe, visited the vicinity of that institution. Her presence was soon known, and she was treated to a mock serenade, and Mrs. Stowe was burnt in effigy! How have the mighty fallen!—George Washington, I well remember to have read, addressed a negro poet in terms of respect, as 'Miss. Phillips,' and raised his hat to a negro man to whom he would not yield the palm of politeness. The present generation of young men are far wiser and more chivalric.

MS. A sister of Macaulay, the English historian, is living in the vicinity of New York in somewhat reduced circumstances. She is married, her husband being like herself, a native of Scotland. His name is Gilbert, and he was a few years ago the manager of the "Clearing House" in London. He came to this country in the hope of bettering his fortunes, and he is at present the business agent of a gentleman of immense wealth living near Fort Washington. The sister is said, by those who have had the pleasure of becoming acquainted with her, to possess the same brilliant and solid accomplishments of imagination and mind which so eminently characterize her brother, the author. She has a charming daughter.

Movements of Population.—The St. Louis Republican congratulates the citizens of Missouri, in view of the fact that the mighty tide of population, which for the past few years had been sweeping toward California, is beginning to flow in contrary direction. Says the Republican, we find emigrants to Western Missouri and Kansas and Nebraska "are coming in as in the days of the Platte Purse."

Mr. Charles C. Burleigh, an agent of the American Anti Slavery Society, will deliver his second lecture on American Slavery, at the State House, this evening, at a quarter before 8 o'clock. He is said to be an able and interesting speaker. The public are invited to attend.

We are very glad that brother Sylvester R. Hazard has made his calling and election sure among the Know Nothings, so as to secure his office again as Overseer of the Poor; he is a very efficient and faithful officer, and ought to be elected for life, if he continues to discharge the duties of his office as thoroughly as he has during the time he has held it.

Howland & Gould, at the City Market, under the Daily News Office, have just received a supply of splendid beef, tongues, &c.

SHERIFF'S SALE.

Sheriff's Office, Newport Co.

NEWPORT, Sc. Newport, May 12th, 1855.

BY virtue of an execution issued out of the
Clark's office of the Court of Common Pleas
for the county of Newport, Nov. Term, A. D.
1854, and to me directed and delivered in favor
of John H. Palmer, Enos W. Richardson and
John A. Wilson, all of the city county and State
of New York, Traders, in Company, as Palmer,
Richardson & Co., and against David Melville
and Henry B. Melville, Contractors as Melville
& Co., both of the City, County and State of
New York, I will sell at Public Auction on the
premises, to the highest bidder, on Sunday, the
11th day of June, A. D. 1855, at 10 o'clock, in
the forenoon, all the right, title and interest that
the said David Melville and Henry B. Melville
had on the 27th day of January, A. D. 1854, at
six o'clock in the afternoon—the time of attach-
ment on the original writ—and to a certain
lot of land with a dwelling house thereon stand-
ing, situated in the city of Newport, and bounded
as follows: Northerly on land formerly of
Wm. Moore, 45 feet; Southerly partly on land
late of Wm. Moore, Jr., dec., and mostly
on Market Square, 29 feet; Westerly on land
of J. V. Hammatt, 43 feet, in all said measure-
ment more or less, and however bounded, with
use of the gangway 5 feet wide. Condition at
sale. WM. DOUGLAS LAKE, Sheriff.

PARENTS.

AMERICAN AND FOREIGN OFFICE.
AGENCY FOR BUSINESS
WITH THE U.S. PATENT OFFICE
WASHINGTON,

NO. 78 STATE, OPPOSITE KILBY ST., BOSTON,
IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U.S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back to others,) will be required by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. *Claims, Specifications, Assignments, and all necessary papers and drawings, for protecting patents in this and foreign countries prepared, and advice rendered on legal and technical matters respecting inventions, and infringement of patents.*

Inventors can not easily here obtain their specifications on the more reasonable terms, but can avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides having saved a journey to Washington, the usual great delay there, as well as personal trouble in obtaining their patents. *Costs of claims of any patent furnished by requiring one dollar. Assignments recorded at Washington.*

R. H. EDDY,
Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents, (i.e., H. Eddy, Esq., of Boston) did business at the Patent Office, as Solicitor of Patents. There were, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and accuracy. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in securing inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

PATENT OFFICE,
(R. H. EDDY, Esq., Boston, Mass.)
Sir:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours,

THOMAS EBANK,

66 State St., Commissioner of Patents.

WM. C. COZZENS & CO. have now open

—3—Hours of reception, 9 to 12 and 2 to 6.

T. RYAN, Gardener.

SOAP! SOAP!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturer's Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than longer certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the heaviest laundry in cold water, either hard or soft, or salt, in cold water entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabrics. In cold weather, both may render it advisable to take the chaff of the water.

The tendency of these soaps to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap in all soiled spots, make a strong lather in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Colored and other colored articles, wash without soaping and rinse.

Woolen—Wash in warm soaps (to prevent shrinking) and rinse.

Linens—Silk, Velvets, Silks, Ribbons, &c. Wash in strong soaps and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong soaps, rub out and rinse. Ink spots and stains, use full strength, soap, and wash in hot water.

Gilding and Mahogany—Wash in weak soaps, rub with silk cloth and rinse. Paint, wash in strong soaps.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and sold for wholesale and retail, by C. G. HARDY,
Depot 228 Thames-st.

Premium awarded at the late Fair of the American Institute. Copyright secured A.D. 1851.

FOR SALE—From 20 to 100 lbs

blended winter whale oil, at the lowest cash price. Also Sperm and crude whale oil.

WM. W. HAZARD,
131, Superintendent Atlantic and St. Lawrence Rail-Road.
